

# FRIDAY FANFARE

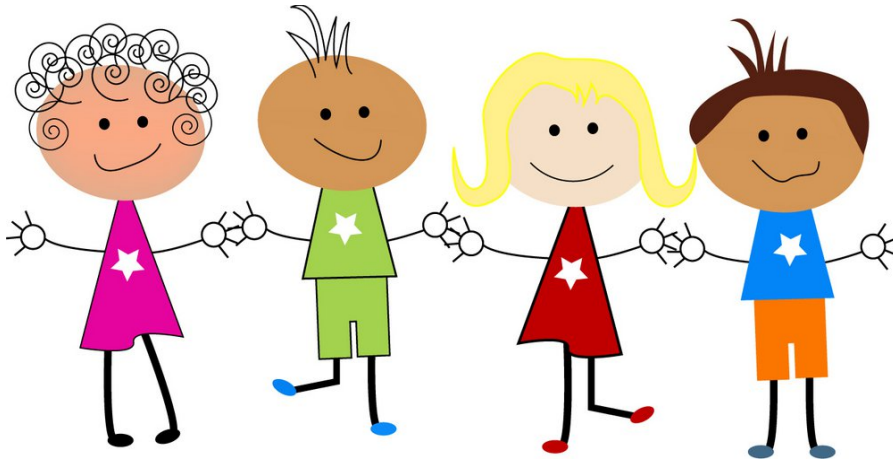

February 23, 2019

Dear Trinity Families,

I just returned from Salt Lake City, Utah which is surrounded by the Wasatch Mountains and the Great Salt Lake! Did you know, the Great Salt Lake is the largest salt lake in the Western Hemisphere? 2.2 million tons of salt flows into Great Salt Lake every year! With no outlet to the ocean, this salt from tributary rivers accumulates resulting in a salt lake. Salt Lake is also home to Temple Square which is the global headquarters of the Mormons (no relation to the Catholic Moehrmans!).

Why was I there? I went as a part of the Mastery Connect Leadership Institute which is “dedicated to developing inspired leadership skills built upon the meaningful and intentional use of data.” The Diocese of Columbus has been sending its administrators out to Utah two or three at a time for this leadership training. I went with the principal of St. Mary German Village as well as other educators and administrators from all over the country. How can we best use the data we have to strengthen our teaching and student success? Stay tuned!

With God's blessings,  
Kimber Moehrman, Principal
